Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	Individual Project
Project Name	Book - A - Doctor
Maximum Marks	4 Marks

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Team Members: Riya Reddy Kasireddy

Project: Book A Doctor (Healthcare Appointment Management System)

Problem Statement: Patients face difficulties in finding suitable doctors and booking appointments efficiently. Manual appointment scheduling causes delays, conflicts, and inconvenience.

Goal: Develop a web-based platform that allows patients to search doctors, book appointments, upload medical reports, and track appointment status online.

Selected Problem: Digital healthcare appointment management.

Step-2: Brainstorm, Idea Listing and Grouping

Ideas Generated:

1. Online doctor search and filtering.
2. Appointment booking and cancellation.
3. Doctor dashboard for appointment approval.
4. Medical report upload and storage.
5. JWT-based authentication and role-based access.
6. Appointment tracking system.

Idea Grouping:

Patient Features: Registration, Login, Search Doctors, Book Appointments.

Doctor Features: Manage Profile, Approve/Reject Appointments.

System Features: Authentication, Database Management, Report Upload.

Step-3: Idea Prioritization

Priority 1: Appointment Booking System (Core Feature)

Priority 2: Doctor Management and Approval Workflow

Priority 3: Secure Authentication using JWT

Priority 4: Medical Report Upload and Tracking

Final Selected Idea: Book A Doctor – A MERN Stack Healthcare Appointment Management System.
